

Welcome back!

We all hope that you had a restful Easter.

For the last two terms of the academic year, our topic is called Forests and Our Future. This topic covers the geography of the rainforests across the globe, but will also include how rainforests are beneficial to our environment and how we can work together to tackle climate change.

Across the month of May, your child will be participating in statutory national assessments, known as SATs. We plan to make light of these assessments, in order to protect your child's wellbeing during this time. We will be referring to them as 'quizzes' and we will be completing these assessments in small groups. I plan to stagger these assessments across the entire month, so as to not overwhelm the children by testing too frequently. If you have any questions, please do not hesitate to get in touch.

We are lucky to have Forest School again on a Thursday afternoon. Due to the size of the class, we will have to split the children into two groups but I will message you to let you know which group your child is in. Please make sure that your child is dressed appropriately on these days, bringing wellies separately so they can get changed before the session begins.

PE will be on a Monday afternoon - the PE uniform list is available on the school website, or on Class Dojo. Please make sure that jumpers and bottoms are black - with a white top - and that earrings have been taken out for the day.

Please can I ask that you keep the afternoon of Thursday 26th May free - more information will be available soon, but I want to make sure all adults are able to make it as I'm aware you may have work commitments.

As we're coming into the warmer weather, please can you make sure that your child comes to school wearing sun cream, and that they have a sun hat and a water bottle with them.

As usual, feel free to message through Dojo or catch us at the school gate for any questions, worries or concerns.

Miss King, Mrs Sharpe and Miss Taylor.
